# Introduction

The Liverpool English team have developed a medium term planning document to support effective implementation of the National Curriculum.

Children need to secure knowledge, understanding and skills in decoding and comprehension in reading and in composition, transcription, vocabulary, grammar and punctuation in writing.

There is a key focus on the 'Immerse, Analyse, Write' teaching sequence to ensure that children have opportunities to practise the key skills whilst building the understanding and knowledge to apply these skills across a range of genres.

Each year group has a list of suggested genres with 2 – 3 week block plans for each one. Each plan includes Statutory Requirements, previous knowledge, possible texts and suggested teaching sequence.

*“The greater part of writing is daydreaming, dreaming the dream of my story, until it hatches out. I love finishing it and then holding it in my hand and sharing my dream with my readers.”*

- Michael Morpurgo

Immerse,  
Analyse,  
Write

## Suggested Breakdown of Non-Fiction Text Blocks

### **This is based on a 2 week block**

An initial write in the text type/ similar text type already covered and a quality mark of this against prior learning, will ensure that the work is focused on the identified gaps in learning and gives a rounded view to the block, with the opportunity for children to review and reflect on their work and understand how they have improved in this text type.

### **Immerse 3-4 days**

This is when the children get to see and engage with different examples of the text type.

They will be using a lot of Speaking and Listening skills, such as following instructions (verbal and written), verbally explaining how to do specific tasks, recounting about a trip or event in/out of school, looking at different texts to find out information on a topic (maybe one from their Science, History, Geography, DT or RE work).

Telling their partner/group/class interesting information they have found.

Role playing persuading another group/person to do something they want to do, or change their mind to come to agreement on a specific question.

It is important to capture their thoughts and ideas through daily incidental writing (post-its, brainstorms, mind maps etc.) both in their books/journals and for the teacher to model choosing most effective ones to go up on to a working wall.

### **Analyse 1-2 days**

This is the time to identify the key features of the text type through discussion and text marking.

Looking at lots of different examples and drawing up charts and tables to decide as a group/class which are the most effective layouts, giving considered reasons for this and talking about how to improve weaker examples.

This will lead to shared understanding of what a good one looks like and should be used to structure and assess the effectiveness of all their writing in this text type.

### Write 5 days

Teacher models how to plan an example of the text type, using all the elements captured in the Immerse and Analyse days and the children to then have a go at writing a plan for the different example they will be writing in the text type

Teacher models how to write the introduction for their example and the children to then have a go at writing their introductions

Teacher models how to improve their plan/introduction and then the children have a go at improving their own.

Teacher models the next couple of key features of the text type; children have a go for themselves.

Teacher models improving the text, children have a go for themselves.

Teacher models writing the ending for the text type and re-evaluates it against success criteria already agreed and shown on working wall.

Depending on the text type, there may be time to repeat this process again to produce 2 or 3 examples written by the children, with the amount of scaffolding being reduced each time.

## Suggested Breakdown of Fiction Text Blocks

### **This is based on a 2 week block**

An initial write in the text type/ similar text type already covered and a quality mark of this against prior learning, will ensure that the work is focused on the identified gaps in learning and gives a rounded view to the block, with the opportunity for children to review and reflect on their work and understand how they have improved in this text type.

### **Immerse 3-4 days**

This is when the children get to engage with the text. This may be one longer text/ discussion of synopsis of different texts by the same author/different versions of the same story/different stories in the same text type to draw comparisons from. A film version of a longer text is also a good way to cover a whole novel in 3-4 sessions.

They will be using a lot of Speaking and Listening skills, such as role-play in character, role on the wall, boxing up the story, babble gabble to get to the key elements of the part/whole of the story, story mapping events in order.

Using storyboards before, during and after the retelling of the story.

Think/pair/share of events and /or actions. Conscience Alley to decide what they think character should do at particular point in the story.

Hot seating in-role, to answer and ask questions. Barrier games to describe the setting/character to a partner

It is important to capture their thoughts and ideas through daily incidental writing (post-its, brainstorm, mind maps, thought and speech bubbles etc.) both in their books/journals and for the teacher to model choosing most effective ones to go up on to a working wall.

### **Analyse 1-2 days**

This is the time to identify the key features of the text type through discussion and text marking.

Looking at the events in the story/stories shared.

Identifying interesting language/improving the text and the importance of word order to convey meaning/tension in the writing (as applicable).

How setting impacts on events.

This will lead to shared understanding of what a good one looks like and should be used to structure and assess the effectiveness of all their writing in this text type.

### Write 5 days

Teacher models how to plan an example of the text type, using all the elements captured in the Immerse and Analyse days and the children to then have a go at writing a plan for the different example they will be writing in the text type

Teacher models how to write the introduction for their example and the children to then have a go at writing their introductions

Teacher models how to improve their plan/introduction and then the children have a go at improving their own.

Teacher models the middle of the story with the problem main character has to overcome, children have a go for themselves.

Teacher models improving the middle and problem, children have a go for themselves.

Teacher models writing the ending and re-evaluates it against success criteria already agreed and shown on working wall.

Words and phrases identified in the Immerse and Analyse phases are highlighted if they have been used, and if not used, they can be used as part of the editing for improvement process before moving on to the next part of the story.

## Suggested Breakdown of Poetry Blocks

### **This is based on a 2 week block**

If completing over 1 week, simply halve the number of suggested days, ensuring IAW covered.

An initial write in the text type/ similar text type already covered and a quality mark of this against prior learning, will ensure that the work is focused on the identified gaps in learning and gives a rounded view to the block, with the opportunity for children to review and reflect on their work and understand how they have improved in this text type.

### **Immerse 3-4 days**

This is when the children get to see and engage with different examples of the poems in a particular style. This may be one longer poem/ discussion of synopsis of different poems by the same author/different versions of the same poem/different poems in the same text type to draw comparisons from.

They will be using a lot of Speaking and Listening skills, such as role-play in character, role on the wall, babble gabble to get to the key elements of the part/whole of the poem, story mapping events in order.

Using storyboards before, during and after the retelling of the poem, (longer narrative poems especially).

Think/pair/share of events and /or actions. Conscience Alley to decide what they think character should do at particular point in the poem.

Rehearsal and performance of poem/s

It is important to capture their thoughts and ideas through daily incidental writing (post-its, brainstorm, mind maps, speech, thought and emotion bubbles etc.) both in their books/journals and for the teacher to model choosing most effective ones to go up on to a working wall.

### **Analyse 1-2 days**

This is the time to identify the key features of the poems through discussion and text marking.

Looking at lots of different examples and drawing up charts and tables to decide as a group/class which are the most effective poems, giving considered reasons for this and talking about how to improve weaker examples.

Identifying the patterns/features/themes specific to the poem style.

This will lead to shared understanding of what a good one looks like and should be used to structure and assess the effectiveness of all their writing in this text type.

### Write 5 days

Teacher models how to plan an example of the poem, using all the elements captured in the Immerse and Analyse days and the children to then have a go at writing a plan for the different example they will be writing as a poem.

Teacher models how to write the first part for their example and the children to then have a go at writing their own starts to the poem.

Teacher models how to improve their first part and then the children have a go at improving their own.

Teacher models the next part/end of the poem; children have a go for themselves.

Teacher models improving the poem, children have a go for themselves.

Teacher re-evaluates and refines it against success criteria already agreed and shown on working wall.

Depending on the poem style, there may be time to repeat this process again to produce 2 or 3 examples written by the children, with the amount of scaffolding being reduced as appropriate.

# Using The Plans

**This is not a scheme but it is more than a medium term plan**

The programme of study has been split into:

## Reading

- Word Reading
- Comprehension

## Writing

- Transcription
- Handwriting
- Composition
- Vocabulary, Grammar and Punctuation

Year 3	
Autumn	<ul style="list-style-type: none"> <li>• Stories with Familiar Settings</li> <li>• Reports</li> <li>• Myths</li> <li>• Poetry – Poems to Perform</li> </ul>
Spring	<ul style="list-style-type: none"> <li>• Mystery</li> <li>• Instruction</li> <li>• Adventure Stories</li> <li>• Poetry – Shape Poetry and Calligrams</li> </ul>

These allocations serve only as a guide for the organisation of the teaching. Other factors such as term length, organisation of the daily English lesson, prior knowledge and cross-curricular links may determine the way in which English is prioritised, taught and delivered in your school.

Each block has assigned Statutory Requirements which are repeated throughout the year or phase. Word Reading, Transcription, Spelling and Handwriting however, have not been allocated and need to be planned for. These will be continuous.

The teaching sequence is then outlined for each block using the ‘Immerse, Analyse, Write’ approach. As before, the timings allocated and the organisation and frequency of delivery is flexible and will vary from school to school.

There are 2 appendices attached:

**Appendix 1 – Immersion Strategies**

# Immersion Strategies

## Strategies to Immerse Children in a Text Type

The following approaches are really effective in developing children's responses to a text type through developing their vocabulary, drama skills, speaking and listening, rehearsal and oral retelling. If captured, this will lead to application of these skills in their written presentation at the end of the text type block.

### Storyboards

Put 6-8 pictures from a story onto A3 landscape format (3+3 or 4+4). If these are laminated they can be re-used throughout the block/by another class or year group. Try to build these up over the year/school so they can become a resource for colleagues to dip into or use for blocks of work. They can also be used in reading for pleasure sessions as a visual text.

Pre-telling the story is using the storyboard before having read the story. This can be a quick or longer strategy depending on how you want to use it. The children can orally tell the story, add notes on post-its to stick onto their storyboard or develop sentences/paragraphs to write their own version of the story. If a complete story is written it is really good to compare this to the original text.

Re-telling the story is using the storyboard to prompt after reading story to the children.

Storyboards are an effective and efficient way of using the same resource to differentiate. When the children are using the storyboard, they can have challenging prompts focusing on language structure, vocabulary or punctuation appropriate to their next steps e.g. one group focuses on using conjunctions and, then, because; another group has adverbs to include; another group has to use fronted adverbial phrases.

### Role on the Wall

A character outline is shared with the children (A4, A3 or life-size-draw round one of your children on wallpaper). The children then describe what the character looks like on the outside of the outline and what the character feels on the inside. This can be used at different points in a story to allow the children to consider how feelings of characters can change during a story.

### Barrier Game

Before seeing a setting or character the teacher describes what it or they look like and the children have to draw their interpretation. The focus is on the accuracy of the words used by the describer and the listening skills of the drawer, rather than the drawing ability of the children. This can also be done in pairs with one child being the describer and the other the drawer.

### Babble Gabble

This is a fun, frenetic way of getting the children to summarise the key points of a story/section of a story. After hearing part or all of a story the children work in pairs. First child has 1 minute to retell the story. Second child then retells story in 30 seconds. First child then retells in 15 seconds. Second child then has 10 seconds. As the time shortens you will notice a speeding up of talking and more use of gestures in the retelling.

### Phone Conversation

On the carpet get the children to sit back to back and hold their hands to their mouth and ear as if holding an invisible phone so they can have a conversation in-role. Good for getting the children to think like a character and respond to questions from another character in a story or a reporter. The children can swap characters and repeat, adding to what their partner has started with, or going in a different direction completely.

### Snowstorm

This is a great way to help children recall events or facts and learn from each other. Having already heard a story or part the children write down one thing they remember about the story/character/setting/feature (non-fiction/poetry) on a piece of paper (scrap is fine). Next they scrunch it up into a snowball and throw into the middle of the carpet or table (depending on space available). Each child picks up a snowball, unfolds, reads information and adds to it. This can be repeated as long as the children can think of other things to write down. This is a good strategy to use when reviewing any learning e.g. Science, Geography, History, RE, DT.

### Conscience Alley

When reading a text, stop at a point when one of the characters has a decision to make. Discuss what that choice is and get the children to decide whether they want to be on the side for or against doing something. Make two lines (one for and one against) with a gap in the middle and then walk down the middle listening to the children's reasons. At the end of the line make your decision, based on how persuasive the lines were and give reasons for how you reached your decision. The children can have a go at being the character next time. This supports all abilities, as less confident children can use/develop ideas already heard and you can challenge more able children to come up with more ideas or better ways of putting the idea.

### Freeze Frame

First, model with one group, in front of the class. Choose children to be characters at a specific point in the story, get them to position themselves and then freeze in position. Teacher then goes into the frame and asks each character how they are feeling/ what they are going to do next. All the children can work in character in groups to do this- they can all be at the same point, or allocated different key points in the story. Teacher then goes around the groups asking them questions in-role.

### Jigsaw

Each group is given a specific aspect to research e.g. in an author study might be home life, growing up, influences, books written etc. Each group produces a poster/info sheet. Once this is complete, one person stays with the poster and the rest of the group move round to another group to make notes and learn about a different aspect. The person left behind is the 'expert' who has to answer questions/explain anything the other groups ask as they move around. This is repeated until they have been around all the groups. Then each group has to produce a range of posters, using the notes they have taken, on all the different aspects covered, thus learning from each other. These can be evaluated and the most effective ones displayed. This is also a really useful cross-curricular strategy.

## Spies and Envoys

This is a good way to review learning. In groups of 4-6 children create a poster on all they have learned/know about a text type or focus e.g. Non-fiction texts or Michael Morpurgo author study. The group chooses one person to be a spy, who has to go and steal information from other group posters and then bring it back to add to their own poster, thus learning from each other and recognising gaps in their own information, which they can use to improve.

Envoys use higher-order skills, as when they go to another group they have to look at the poster, decide what they want to take back and use. Then they have to think of something on their poster that they will trade for this new information. This has to be agreed with the other group and then they can take it back and use it on their own poster. If there is nothing they want off the other group's poster, they move on to the next group and don't offer any information to that group.

## Pyramid Game

This is a way of getting the children to consider the importance of events, features or facts. Children are given/write down 10 events/features or facts (depending on text type). They then have to order them with the most important at the top of the pyramid and the least important on the bottom row e.g.

```

      X
     X X
    X X X
   X X X X

```

They can then discuss their reasons for putting cards in particular order, with a view to being able to change their mind if they think their partner/group has a better reason for putting them in different order. The children don't have to reach full agreement on every point, as with stories they can interpret them differently and with non-chronological reports the order is down to the writer too. This can be done in pairs, groups or whole class and leads to really good discussion and development of their reasoning skills to justify choices.

## Mind Maps

These can be used to capture ideas around a story, for research in non-fiction and for looking at different aspects of a poem. The block title goes in the centre, then different aspects such as setting, characters, build up, problem, resolution, vocab- own and maggied words and phrases. This is a good way to capture the learning in the immersion phase and can be added to in the plenary. This can then be added to with the analysis phase of the block and, in essence becomes the plan for writing in the text type during the writing and presentation phase. It can also be used as an assessment tool for the children, with an expectation that they look back at it and use some of the words and phrases within the features of the text type.

## Magpies

All writers are magpies who steal words and phrases they hear, to use in their own writing. This is a great chance to share ideas in the plenaries throughout the session and to record their own ideas for vocabulary and phrases and then magpie-ing one or two from others. Teachers can model this when discussing ideas that they are putting up on to their working wall, then stealing some from the children to put up too and then modelling how to use these when they come to the writing/presentation phase of the block.

## KWL Grids

These are a good way of starting with what the children already **know** about a new text type for the teacher to decide what the gaps in learning are and what they need to focus on. They are an opportunity for the children to help direct the learning through thinking about **what they want to learn** which can be discussed and agreed with the teacher at the beginning of the block. Then at the end of the block to review what they have **learned e.g.**
